

Monday Lunchtime Seminars at 1.00pm

Ground Floor Lecture Theatre, Howard Florey Institute, University of Melbourne, Parkville campus

Date	Speaker	Title
3 Aug	Dr Marjorie Dunlop MDHS Faculty Research Unit	Approaches to successful funding and grant writing in the neurosciences
10 Aug	Associate Professor Paul Whittington Dept of Anatomy & Cell Biology University of Melbourne	Contribution of Drosophila to neuroscience research
17 Aug	Professor Geoffrey Donnan Director, Florey Neuroscience Institutes	Principles and practice of neuroscience based clinical research
24 Aug	Dr Sharon Louis Senior Scientist Stem Cell Technologies	Functional characterisation and enumeration of neural stem and progenitor cells
31 Aug	Professor Jonathan Manton Dept Electrical & Electronic Engineering University of Melbourne	The use of engineering to aid basic neuroscience research
7 Sep	Seminar cancelled	
14 Sep	Professor John Hopper Centre for MEGA Epidemiology University of Melbourne	Biostatistics: back to basics
21 & 28 Sep	Semester Break	
5 Oct	Dr Joseph Nicolazzo Dept of Pharmacology Monash University	Recent advances in drug delivery to the CNS
12 Oct	Dr Peter Crouch Dept. of Pathology, University of Melbourne and Mental Health Research Institute of Victoria	The need for basic mechanism of action research in the development of new therapeutic agents
19 Oct	Dr Steve Petrou Ion Channels & Human Disease Group Florey Neuroscience Institutes and Centre for Neuroscience	The electrophysiology and molecular biology interface: contribution of xenopus to neuroscience
26 Oct	Professor Graeme Jackson Director, Brain Research Institute	Recent advances in brain imaging methods: connecting mind and brain
